Waterloo, Canada | [a55lee@uwaterloo.ca](mailto:a55lee@uwaterloo.ca) | [LinkedIn](#) | [GitHub](#) | [1128alex.github.io](https://1128alex.github.io)

## EDUCATION

### University of Waterloo

September 2023 - Present

*Bachelor in Data Science, Minor in Combinatorics and Optimization*

*Waterloo, ON*

**Relevant Coursework:** Data Structures, Algorithm Design, Statistics, Sampling Design, Linear Algebra

**Scholarship:** President's Scholarship of Distinction - \$2,000 scholarship for students with average over 95%

## SKILLS

**Languages:** Python, Java, R, SQL, Bash

**Frameworks/Libraries:** Pandas, Matplotlib, NumPy, SciKit, TensorFlow, OpenCV

**Tools:** MySQL, MongoDB, PowerBI, Git, AWS

## EXPERIENCE

### Data Analyst

May 2025 - August 2025

*Daechitop English Institute*

- Collected and cleaned student performance data using **Excel**; performed exploratory analysis to identify solutions for improvement and generated visual reports that drove a **12%** increase in average test scores.
- Developed an automation tool using **Excel VBA** and **PyAutoGUI** to streamline repeated work, reducing working time by **75% (3x)** and enabling instructors to focus on personalized teaching.
- Delivered **data-driven insights** through accurate statistical analysis and communication skills, which instructors used to design and offer an appropriate education system that maximized students' study efficiency.

### Database Developer

January 2025 - April 2025

*AKCSE*

*Waterloo, ON*

- Led the development of official AKCSE website using **Express** and **MongoDB** to enhance accessibility to career and academic help resources for students and increased the event participants by **150%**.
- Optimized website maintenance efficiency by **300%** by implementing **dynamic CRUD**, while implementing **authentication** and access control features to strengthen data security.
- Demonstrated quality teamwork and leadership by collaborating with a team of **5**, focusing on specialization for better outcome quality, and led to **20%** increase in event participation.

### Finance Analyst

September 2024 - December 2024

*AKCSE*

*Waterloo, ON*

- Conveyed accountability and organization skills by analyzing and managing the cash flow of the organization using **Excel** to reduce reporting time by **30%** and improved reporting accuracy by **10%**.
- Coordinated with executive members to exercise strategized marketing while promoting academic resources such as Open House, and Resume Critique for the greater Kitchener-Waterloo community.
- Reduced **10%** of unnecessary expenditures by writting annual financial reports to identify inefficiencies and recommended actionable strategies for better financial management of the organization.

## PROJECTS

### AI/ML Football Analysis | *Python, OpenCV, Pandas* | [GitHub](#) | [Link](#)

- Built a football analysis system using **OpenCV** to track key metrics such as ball possession and player speed.
- Trained a **YOLOv11** model with **10,000+** images, achieving **0.877** mAP50 with 35.7 ms per-frame latency.
- Deployed services on **AWS EC2** with **SQS**, and built a **Next.js** web app for video upload and real-time analysis.

### Credit Card Fraud Detection | *Jupyter Notebook, Pandas, Scikit-learn, Tensorflow* | [GitHub](#)

- Developed credit card fraud classification model using **sklearn** and **TensorFlow** with **96%** prediction accuracy.
- Collected **200,000+** transaction data and cleaned by reshaping and scaling to handle **imbalance dataset**.
- Utilized **Shallow Neural Network** as a prediction model, comparing **5** different models for optimal results.

### FBREF Football Data Analysis | *Pandas, Matplotlib, PowerBI, Selenium* | [GitHub](#)

- Collected **100,000+** football match data using **Selenium** and cleaned raw datas into a **Pandas DataFrame**.
- Performed exploratory analysis using **matplotlib** and **PowerBI** to visualize findings interactively and intuitively.
- Identified progress passing distance as key predictor of math results, suggesting focused strategies to teams.
